2026 Product Presentation · U.S. residential real estate

REALLYWISE.AI

An AI agent ecosystem for real estate.

Capture every lead. Keep it warm. Close more deals.

Every listing gets a Property Expert, every buyer gets a Home Concierge, and every agent gets Realisa, their AI assistant.

01 THE THESIS

Buyer intent is captured late and lost early.

THE PROBLEM

Agents meet buyers too late.

Buyers research alone across portals and general chatbots. Agents only see them once they call, and most early interest is never followed up.

OUR ANSWER

AI on both sides of the deal, with the agent at the center.

Agents that answer every buyer 24/7 from real property data, learn what each buyer needs, and hand the agent a warm lead at the right moment.

WHY IT COMPOUNDS

The right home for every buyer, from every listing.

Home Concierge recommends from every listing on the market, so buyers find the home that fits them best. Homes with a Property Expert add instant, cited answers, so every new expert makes decisions faster.

Buyers talk to the AI. Agents get the deal.

1 WHO ASKS

END USER

Home buyer

Asks the AI any hour, from a sign, a link or a text.

1. About one home
2. What to buy

1 · ASKS

2 · ASKS

2 AI THAT ANSWERS

ON EVERY LISTING

Property Expert AI

Is the roof in good shape at 123 Main St?

Answers from that home's own documents, with sources.

Concierge recommends any home on the market. Homes with a Property Expert answer instantly.

FOR EVERY BUYER

Home Concierge AI

Good schools and a yard, under $900K. Which home should we buy?

Learns goals and budget, then recommends homes and areas.

WARM LEAD

WARM LEAD

3 WHO IT WORKS FOR

Listing agent

Gets tour requests with the full chat.

NO LEAD GOES COLD

Buyer's agent

Knows who is ready and what they want.

CLOSES WITH FULL CONTEXT

REMINDS

4 THEIR ASSISTANT

AI ASSISTANT

Realisa

The agent's own assistant, on both sides of the deal.

- Morning brief
- Reminders
- Pipeline, schedule

Selling side: a buyer scans the yard sign and asks the home's Property Expert. When they ask to tour, the listing agent gets the lead with the full chat.

Buying side: the buyer's agent sends a Home Concierge at first contact. It learns what the buyer needs, recommends homes and tells the agent who is ready.

03 THE PRODUCTS

ReallyWise.ai

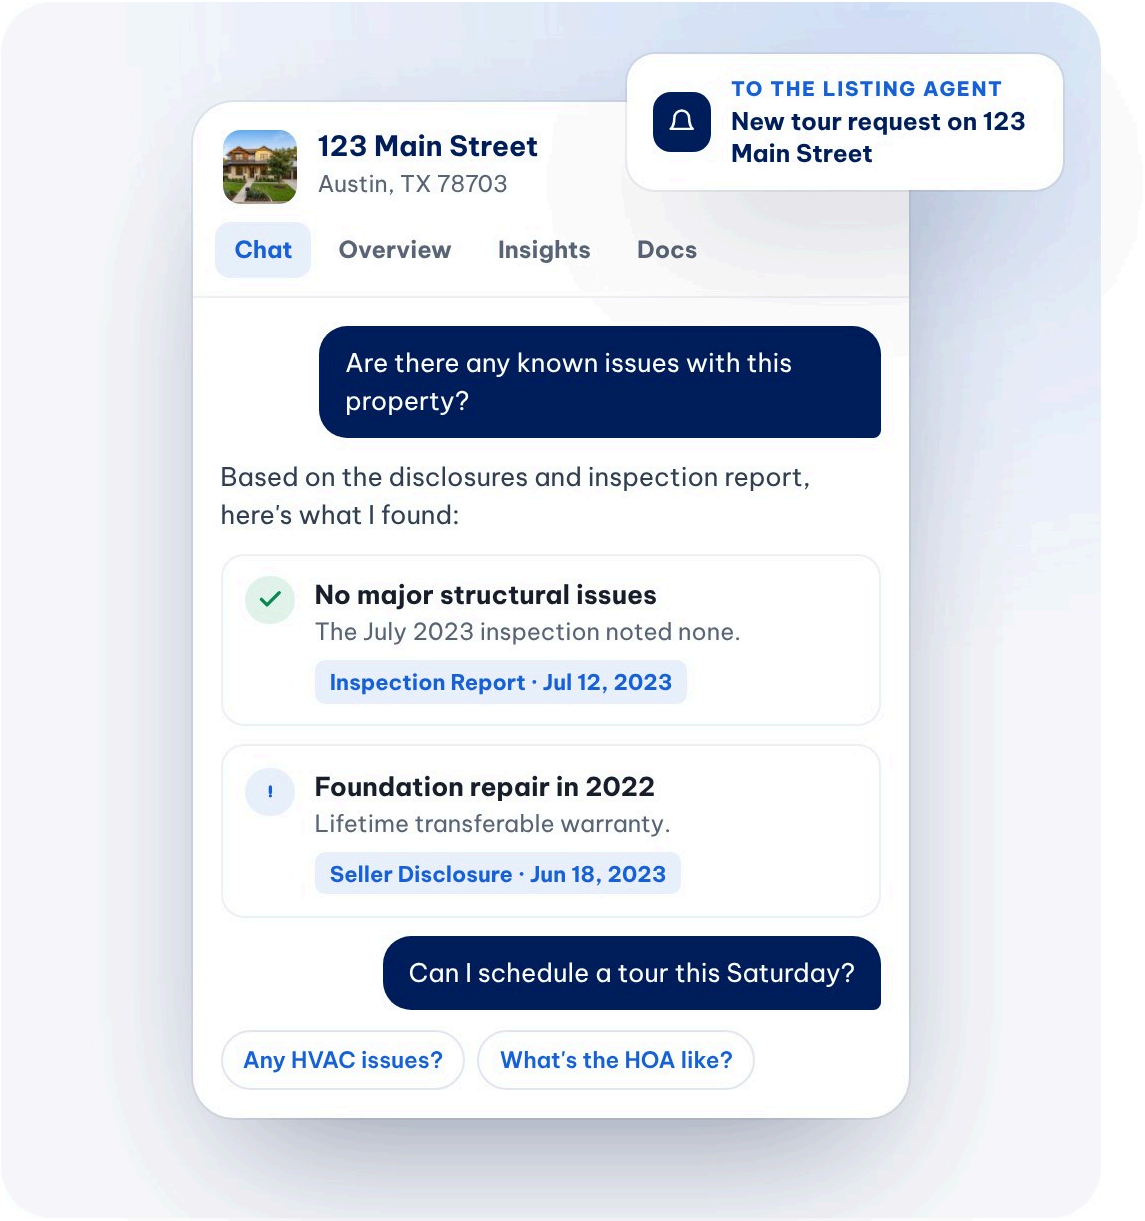

Property Expert

Turns every listing into a 24/7 expert.

Used by: home buyers | Works for: listing agent

Buyers scan a QR on the yard sign or open a link and get cited answers from the listing, disclosures, inspection and public records.

- Captures anonymous interest from every sign and link
- Answers with cited sources, never guesses
- Converts questions into tour requests

04 THE PRODUCTS

ReallyWise.ai

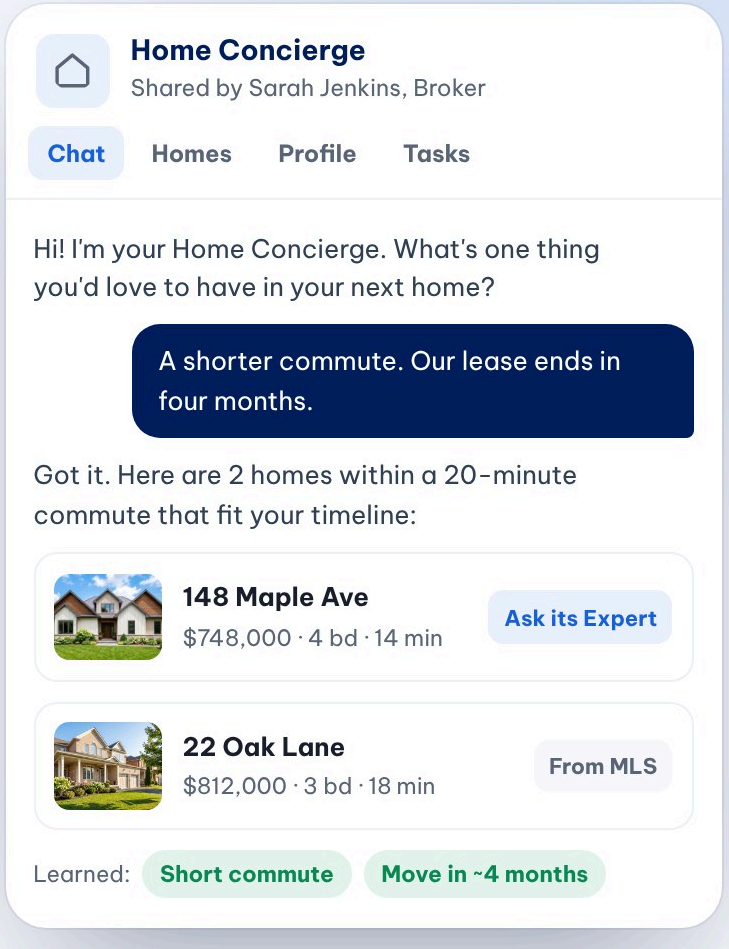

Home Concierge

A personal concierge for every buyer.

Used by: home buyers | Works for: buyer's agent

Sent by the buyer's agent at first contact. It learns what the buyer needs and recommends the homes that fit best, from every listing on the market, with or without a Property Expert. Its goal: the home the buyer loves most.

- Engages new leads with no buyer profile needed
- Learns needs, budget comfort and timeline
- Recommends from any listing, not just Property Expert homes

05 THE PRODUCTS

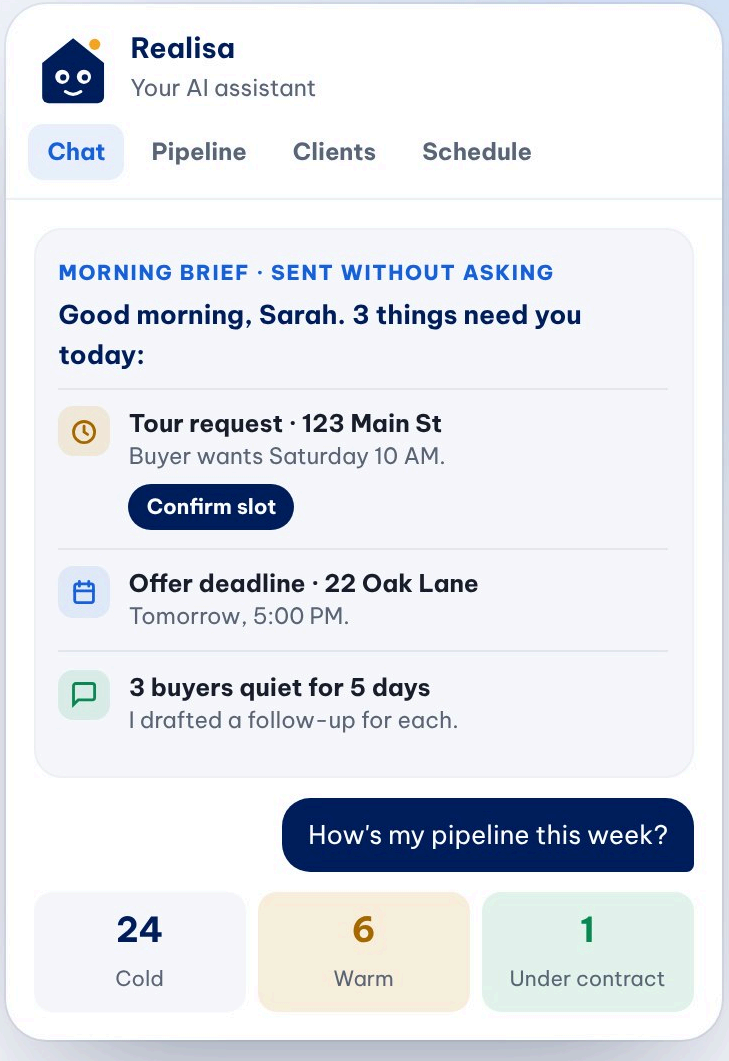

Realisa

The agent's AI assistant.

Used by: listing agents and buyer's agents

Ask anything about pipeline, clients, schedule or open tasks, or don't ask at all: Realisa reminds the agent of what needs attention before it slips.

- **Answers any question on pipeline, clients, schedule**
- **Reminds proactively, without being asked**
- **Prioritizes warm leads over noise**

06 HOW IT WORKS

Lead Capture. Lead Retain.

01 CAPTURE

A stranger starts a conversation

From a yard-sign QR, listing link or the first message from a buyer's agent. No login, no form.

02 ENGAGE

The AI learns what matters

Grounded answers build trust while the AI picks up needs, budget comfort and timeline.

03 THE MOMENT

Cold becomes warm: the buyer asks to see the home

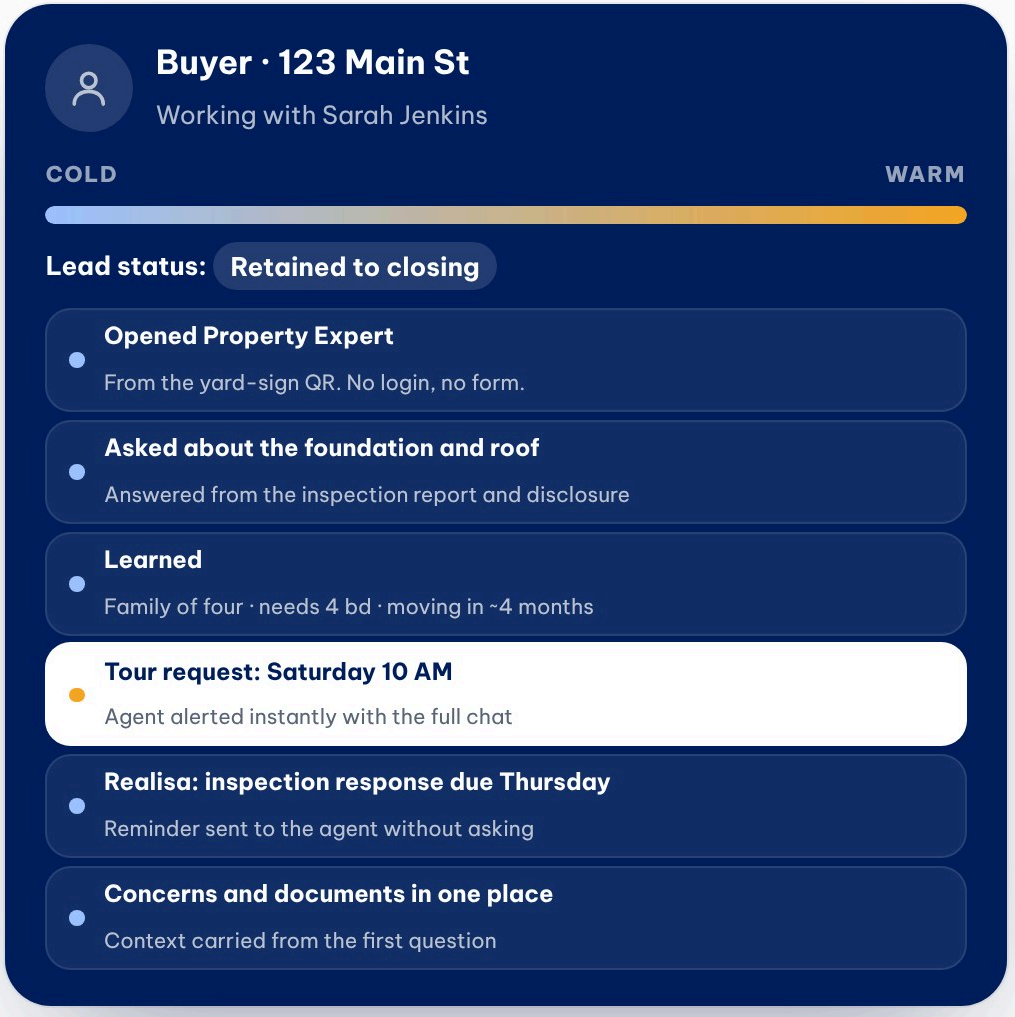

The agent is alerted instantly, with full context of what this buyer cares about.

04 RETAIN

Stay with the buyer to closing

Concerns, documents and deadlines stay visible. Realisa keeps the agent on top of every step.

Every answer grounded in MLS · Seller Disclosure · Inspection Report · Public Records · HOA · Comps

07 TRY IT YOURSELF

See it live.

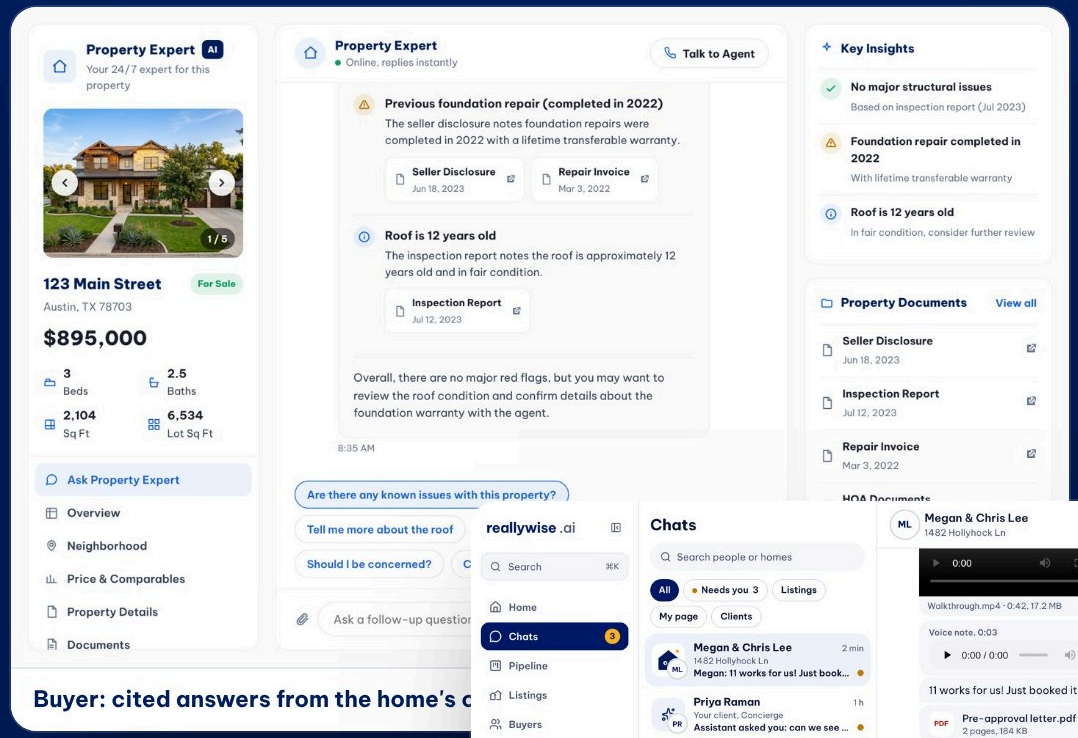

On the web this deck is interactive: ask the AI as a buyer, then walk through the agent dashboard. Scan a code or click a link.

Buyer: cited answers from the home's c

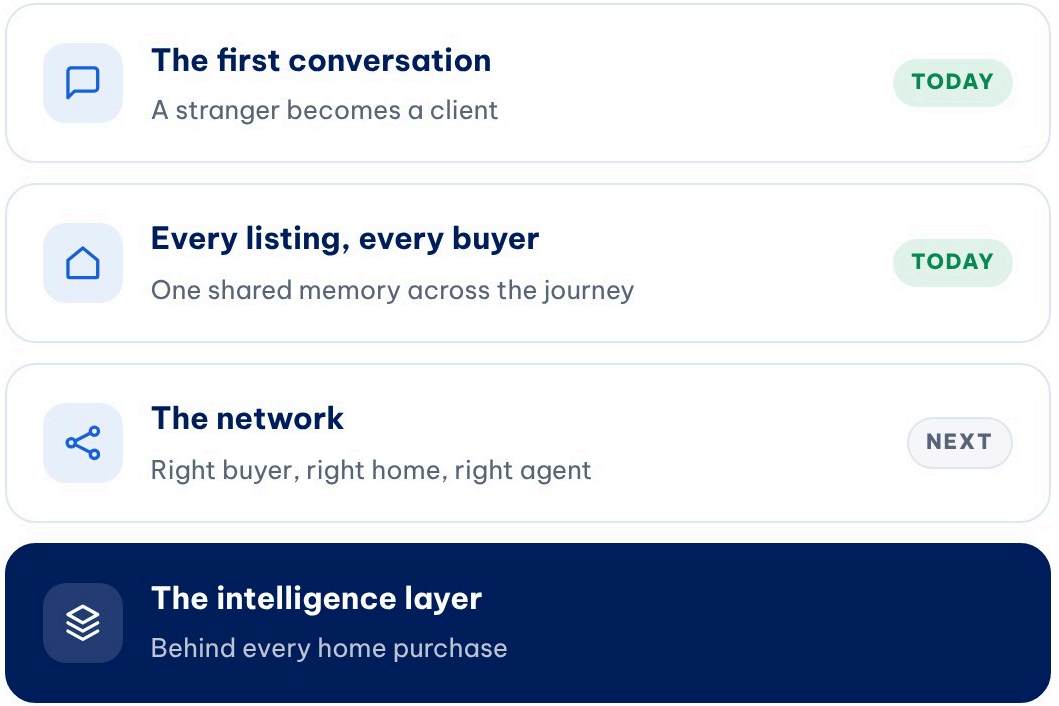

Agent: every chat, with the AI's work

VISION

The intelligence layer behind every home purchase.

Today an agent's business is scattered across portals, CRMs, group chats and memory. We are building the layer where every listing, every buyer conversation and every agent decision lives together.

It starts with the moment a stranger becomes a client, and grows into the network that connects every buyer to the right home and the right agent.

THANK YOU

See it live, then let's talk.

We would love to walk you through the product, the U.S. go-to-market and where we are taking the network next.
